To whom it may concern,

It is my pleasure to recommend Hafeez Oki and his company, Biznis Intel.

Over the past 6 months the Veterans Transition Network has been engaged in a campaign to support the care and evacuation of Afghan citizens who supported the Canadian government from 2001 to 2014.

Our mission has been to provide application assistance, food and accommodations, financial support, security and logistics, transportation and evacuation assistance for Afghan families who qualify for migration to Canada under our government's Special Immigration Measures program.

Biznis Intel has been a trusted service provider during this campaign, and our work would not have been possible without their support. Over the course of our campaign Hafeez has proven himself to be a well-informed, professional, and responsive partner. His local knowledge and personal connections have proved invaluable to our work and I can wholeheartedly recommend him and Biznis Intel as a service provider or business partner.
